RELY ON RUUD.™

Heating & Cooling

Innovation You Can Count On

Patented industry-first features and 360+1 design make the Ruud Endeavor RDFXYC a smart choice.

Peace-Of-Mind Performance

Relax, you're covered by one of the best warranties in the industry¹—10 Year Conditional Parts in residential applications.

Reduced Emissions

Residential packaged dual fuel units feature a MicroChannel refrigerant system with an all-aluminum evaporator and condenser coils that fight corrosion and provide superior heat transfer capabilities for a more dependable performance—while using up to 58% less refrigerant than similar models.

High Comfort

Two-stage operation (67% and 100%) works to meet your ever-changing heating and cooling needs. You'll enjoy steady temperature and advanced humidity control that combine to exceed your optimal comfort expectations. This packaged dual fuel heat pump also provides 40% higher heating capacity than a standard heat pump, allowing air temperature to be an average of five degrees warmer than standard single- or two-stage heat pumps in all heating conditions.

Dual Fuel Efficiency & Versatility

As a dual fuel unit, the RDFXYC is a single-unit heating and cooling system that combines an electric heat pump with a gas furnace for efficient, year-round comfort. Heat pump technology draws heat from outside to keep the home warm during cooler temperatures and reverses the process in the summer for year-round efficiency. When outdoor temperatures drop too low for the heat pump to heat efficiently, the dual fuel unit automatically switches to the gas furnace function for reliable heating—even in the extreme cold.

Rugged Curb Appeal

The steel cabinet with a louvered coil guard provides excellent internal protection while the overall modern cabinet aesthetics, including the powder coat paint system, allow your unit to put its best face forward for years to come. The sloped drain pan ensures all water is removed from the unit, eliminating any bacterial growth and enhancing indoor air quality.

We Thought
of Everything...
& Then Some

We evaluate every detail of a product from top to bottom, inside and out and every angle in between. That's 360+1. And that's why you can count on this residential packaged dual fuel unit to bring you and your family years of efficient and dependable comfort.

TESTED.
TRUSTED.
TOUGH.

From the smallest part to complete comfort systems, we engineer quality into every piece of equipment to be sure it's tough enough to deliver the maximum performance you count on day after day, year after year. That reliability is what makes Ruud different—and better.

From One Convenient Unit

Among Residential
Packaged Dual Fuel
Units, **This One's a Star²**

Earning ENERGY STAR® recognition means products meet strict energy efficiency guidelines set by the U.S. Environmental Protection Agency. ENERGY STAR certified heating and cooling equipment can enhance the comfort of your home while saving energy—which saves money on utility bills and protects our climate by reducing harmful carbon pollution and other greenhouse gases.

The Ruud Endeavor RDFXYC operates with the easy-to-use EcoNet Smart Thermostat, which optimizes system performance and provides a new level of protection and precision comfort with features like:

- Communication with latest sensor technology
- Control of your thermostat from anywhere via the EcoNet App³
- Alerts sent directly to your phone or email

ENDEAVOR®

Simplified Install & Service with Bluetooth Technology

Built-in Bluetooth® connectivity makes it faster and easier for your contractor to install and service your new system. This can help lower your costs and help make your home comfortable again—fast.

Designing for Sustainability with Low GWP

For 2025, the Environmental Protection Agency (EPA) has set a global warming potential (GWP) limit of 700 for refrigerant used in heating and cooling systems. This new requirement will result in a 78%⁴ lower GWP than previous-generation refrigerants—with only minimal changes to system installation. For us, this is another step toward our continued sustainability goal of reducing greenhouse gas emissions, while still delivering an exceptional level of energy efficient, dependable comfort.

Ruud.com

Innovating Since 1925

As the only brand bringing innovative air and water solutions to homes and businesses around the world, Ruud continues to deliver advanced comfort, savings and experiences to our customers—just as we've done for over a century.

FEATURES AT A GLANCE

Cooling & Heating Efficiencies Up To:

15.2 SEER2 / 11.5 EER2 / 7.2 HSPF2 / 81% AFUE

Refrigerant Type: R-454B

Nominal Sizes: 2 to 5 Tons

Cooling Capacities: 22.8 to 57 kBTU/h

Heating Capacity Heat Pump: 32 to 55.5 kBTU/h

Heating Capacity Gas (1st/2nd Stage):

34/48.6 to 56.7/81 kBTU/h

ENERGY STAR® Certified: Yes

EcoNet® Enabled: Yes

Sound Rating⁵: As low as 78 dBA

Compressor Type: Two-Stage Scroll

Evaporator Coil Type: MicroChannel

Condenser Coil Type: MicroChannel

Airflow Type: Convertible

Blower Motor Type: Constant CFM

Fan Motor Type: PSC

Stainless Steel Heat Exchanger: Yes
(factory-installed option)

1-Phase Option: Yes

3-Phase Option: Yes

Compatible Thermostat: EcoNet Smart
Thermostat and Two-Stage 24V

PlusOnes:

PlusOne® Ignition System –
Proven Direct Spark Ignition (DSI)
for reliability and longevity

PlusOne Refrigerant Detection System™⁶ –
Integrated, patented design providing system
protection and homeowner peace-of-mind
with low GWP refrigerant monitoring

PlusOne Diagnostics – Bluetooth
technology aids in quick & easy service

Limited Warranty¹:

Conditional Parts (Residential Applications) –
10 Years (registration required)

Compressor (Residential Applications) – 10 Years

Heat Exchanger (Residential Applications) – Ltd. Lifetime

Parts (Commercial Applications) – 1 Year

Compressor (Commercial Applications) – 5 Years

Heat Exchanger (Commercial Applications) – 20 Years
